Summary: Just an Idea to a future story. Basically a slipspace malfunction causes Team Bravo to end up on the Normandy and they end up helping her fight the reapers in their own UNSC/SPARTAN way.

Just my Luck

Just my Luck (A mass effect and Halo crossover)

After the UNSC Loredana is hit by a covenant blast, the slip space drive malfunctions, sending it to a new world entirely and Team Bravo find themselves aboard the SSV Normandy and in the middle of another war with an alien race that only wishes to destroy.

With no way to return home, they decide to help Commander Shepard in her fight against the reapers. Deciding that there are some wars hold similar reasons to others.

Meet Team Bravo:

Captain Elizabeth Taylor, leader of Team Bravo and known to her team mates as Twitch. A somewhat tall and slim lady, with long brown hair and vivid blue eyes, she wields an energy sword in one hand and an M6G magnum in the other.

Commander John Smith, known as VS (Pronounced Vis) is second in command. With golden blonde hair and sky blue eyes, his knowledge lies in all vehicles, whether they are human or covenant. He carries a rocket launcher and shotgun with him and won't hesitate to use either.

Lieutenant James Bishop is known to his team as Lock, for there is no lock, computer or any piece of electronics that he cannot hack or open. With short, wavy black hair and emerald green eyes, his weapon of choice is a DMR and he is deadly at either long or short range.

Katarina Davyd is the newest member of Team Bravo and is known as Babushka due to her Russian heritage. An unparalleled sniper, she can shoot the gun out of a grunts hand at 500 feet and take out all the ones around it before it had the chance to blink.

><p>This is an idea i have had floating in my head. And I wanted to know what you all thought about it. If it sounds crap, I wont write it, but if it sounds alright, I'll go ahead. <p>

Also I put this here and on my profile and in my story itself. I will be putting Time Wolf on a hiatus...because I don't believe it can be salvaged, it just takes too much to change it.

Instead I've started writing a shorter, replacement Fenris X OC fic. Maybe a two shot or something. Sorry for those who did like Time Wolf, and If you want to take the story and use it/fix it/rewrite it/whatever, message me.

Cheers
